This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

EXCERPT FROM

FIFTH BIENNIAL REPORT

OF THE

STATE OF MAINE

DEPARTMENT OF LABOR AND INDUSTRY

FOR

1919-1920

With the Reports of the State Board of Arbitration and Conciliation for the years 1919-1920

WATERVILLE
SENTINEL PUBLISHING COMPANY
1921

EXPLANATORY

This report covers work of the Department for the period of two years, commencing July 1, 1918 and ending July 1, 1920, with exception of the directory of labor unions, manufacturing establishments and the table giving the number of minors between the ages of 14 and 16 years employed in manufacturing, mechanical, mercantile and other establishments in the State. These three subjects have been revised to conform with the statistics gathered to December 1, 1920.

The next biennial report, for which statistics are now being secured, will cover a period extending from July 1, 1920 to July 1, 1922.

STATE OF MAINE

OFFICE OF DEPARTMENT OF LABOR AND INDUSTRY

AUGUSTA, January 1, 1921.

To His Excellency, the Governor of Maine:

SIR:—I have the honor to transmit herewith to you the Fifth Biennial Statistical Report of the State Department of Labor and Industry for the years 1919-1920.

Yours very respectfully,

ROSCOE A. EDDY,

Commissioner.

Dup. exch. Natl. Indl. Conf. Board, 24 Mar. 19

MANUFACTURING INDUSTRIES IN MAINE

The subjoined table classified by industry has been prepared for the purpose of listing separately similar industries, which will be a convenience when it is desired to obtain information with reference to any particular industry of the State. We have received many requests that the manufacturing directory when published again be classified by industries instead of by cities and towns as previously arranged. After due consideration and advice from competent authorities, we did not deem it wise to make the change because it would impair the directory for many of the purposes for which it is now obtained and used. It is believed that the addition of this table will care for the deficiency complained of as it shows under one heading all industries of that group and the counties in which they are located, the number of employees of each industry in each county, the total number of employees of each industry in the state and the total number of employees of all industries in the state.

The 1917-1918 report showed the total number of persons employed in the manufacturing industries of the State to be 113,410. This table shows the number to be 110,875 which is a decrease of 2535 employees since our last report. The decreases and increases were as follows: A decrease of 457 in the Cotton industry, 4089 in the Shipbuilding industry and 714 in all other manufacturing industries and an increase of 967 employees in the Boot and Shoe industry, 188 in the Woolen industry and 1570 in the Pulp and Paper industry.

SUMMARY OF THE MANUFACTURING INDUSTRIES OF MAINE

The information herein contained was obtained through various sources, viz.; Through the officials connected directly with the Department, through special agents, through reports direct from manufacturers and through the town clerks of the several towns.

Number of employees in manufacturing establishments by counties:

STATE OF MAINE

Board of Arbitration and Conciliation

December 1, 1920.

To the Governor and Council of the State of Maine:

The report of the State Board of Arbitration and Conciliation, for the two years ending December 1, 1920, is herewith submitted, in compliance with the requirements of section 1 of chapter 49 of the Revised Statutes of Maine.

Respectfully,

FRANK H. INGRAHAM,
EDWARD A. CARTRET
JOHN HOUSTON

State Board of Arbitration and Conciliation.

REPORT

During the year 1919, Hon. Alton C. Wheeler, of South Paris, was Chairman of the board, Hon. John Houston, of Guilford, was the employer member and Edward A. Cartret, of Westbrook, was the employee member, the latter having been Secretary during the two years covered by this report. On the resignation of Mr. Wheeler, Frank H. Ingraham, of Rockland, was appointed January 7, 1920, by Governor Milliken to fill the vacancy his term expiring September 25, 1921. Otherwise, the membership of the board has remained the same for the two years, Mr. Ingraham having been elected Chairman.

Section 1 of Chapter 49 of the Revised Statutes provides that "it shall be the duty of the board to endeavor to settle disputes, strikes and lockouts between employers and employees" and the following sections to and including section 6 provide in detail in regard thereto. Section 7 of the same chapter provides regulations for advertisements and solicitations by employers during the continuance of labor troubles among their employees and it is stipulated that such provisions "shall cease to be operative when the State Board of Arbitration and Conciliaton shall determine that the business of the employer, in respect to which the strike, or other labor trouble occurred, is being carried on in the normal and usual manner and to the normal and usual extent." This question is to be determined as soon as may be upon the application of the employer and section 8 provides that whoever violates section 7 "shall be punished by a fine of not less than twenty-five, nor more than fifty dollars." This report, therefore, should properly take up first, the matter of the settlement of labor controversies and second, the determination of questions as to whether or not the business in respect to which the labor trouble occurred was being carried on in the normal and usual manner and to the normal and usual extent.
